The Human Resource Manager

Mimbula Minerals Limited.

32 14th Street (Kwacha Road), Nchanga South Chingola ZM, 10101.

Dear Sir/Madam,

RE: APPLICATION FOR INDUSTRIAL ATTACHMENT DATED FOR 1st October, 2024.

I am writing to express my keen interest in pursuing an industrial attachment at Mimbula Minerals Limited. Currently, I am a third-year student at The Copperbelt University, pursuing (hons) Degree in Electrical/Electronics Engineering. The diverse knowledge and skills I am acquiring through my program have equipped me with a solid foundation in both Electrical and Electronics Systems. I am confident that an attachment at your esteemed company will significantly enhance my practical understanding of these concepts.

The opportunity to work on your various projects excites me, as I believe they will sharpen my engineering knowledge and skills and provide invaluable hands-on experience. This attachment would be a dream come true, allowing me to give back to my community while advancing my professional growth.

Enclosed with this letter are my results transcript, a photocopy of my National Registration Card, and a letter of recommendation from my University. I am eager to learn from the professionals at Mimbula Minerals Limited, as this experience would greatly shape my understanding of real-time industry demands and foster an environment conducive to innovation and the implementation of new ideas.

Thank you for considering my application. I am looking forward to the possibility of contributing to the continued success of Mimbula Minerals Limited.

Yours faithfully,

Mudenda Prosper
